

A LESSON IN RESPONSIBLE PARKING

BE THOUGHTFUL OF
OUR NEIGHBOURS

Responsible Parenting ^{king} ~~center~~

If you need to drive your child to school, for their safety and ours, please remember:

WE CARE about our neighbours, you should too: we understand it can be convenient for you to park close to the school gates and that you're not stopping for too long, but please, for their safety and convenience, never park across driveways or on corners or junctions.

Want to really make a difference? Join the movement!

- ★ Ultimately, fewer cars at the school entrance will help make it a safer environment for you and your children.
- ★ **Park and Stride** – consider walking part of the way to school by parking away from the school entrance and walking the last 5 or 10 minutes. Walking half a mile only takes between 8 and 17 minutes. How many calories you burn depends on how fast you walk!
- ★ **Try Car Sharing** – consider sharing the school run. If you have to drive to school then get together with other parents who need to go by car and take it in turns to drive.
- ★ **Walking Bus** – organise a small group of parents to share the walk to school and take it in turns with other parents to do the school run. You could even combine this idea with Park and Stride.

Walking, cycling or scooting to school contributes to the recommended daily physical activity for you and your children. It also helps to reduce congestion around the school and helps to improve air quality, providing benefits for everyone.
